

Preparation for Tomotherapy

Radixact Томотерапия targets tumors with the highest precision, minimizing side effects and preserving surrounding healthy tissues.

Important! Before your consultation or hospitalization, please be sure to contact us by phone: +7 777 039 10 79

IF THE PATIENT DOES NOT HAVE THE REQUIRED TESTS:

- The patient is referred for further examination at their local clinic.
- Alternatively, the tests can be done in the Tomotherapy treatment room on a paid basis within **3 business days before the date of hospitalization**.

REQUIRED DOCUMENTS FOR A CONSULTATION

- Most recent discharge summary from a medical facility
- Reports from MRI, PET/CT, CT, or MRI scans
- A disc with the scan results (if they were performed)

REFERRAL FOR THERAPY

You can get a referral for radiation therapy at:

- Your local outpatient clinic
- The oncology center where you are registered

FOR HOSPITALIZATION, A REFERRAL IS REQUIRED THROUGH THE KDU (CONSULTATIVE AND DIAGNOSTIC UNIT)

Service: D92.247.026 – Remote radiation therapy using photons on a linear accelerator

Recipient: TOO Alma Medical Group

REQUIREMENTS FOR MEDICAL TESTS BEFORE TREATMENT

For hospitalization, it is necessary to provide recent medical tests and examinations. The validity period of the tests should not exceed:
